

Four Health Family Resource Center wants to keep you connected to our mission and goals!

Coronavirus Update

Four Health understands the stress and uncertainty the coronavirus has caused our community. Here is what we are doing to help:

1. Our office will remain open and available unless otherwise advised.
2. We continue to sanitize our therapy rooms and waiting area.
3. We moved our lobby furniture to promote social distancing!
4. Our clients are able to cancel at any time if they have any concerns about traveling to our office or are sick.
5. We will continue to share updates on our facebook page!
6. **FOUR HEALTH IS NOW OFFERING TELEHEALTH SERVICES!!!**

TELEHEALTH

In order to continue to provide services safely, we are now offering Telehealth services to help our community stay safe and still receive support.

We will verify your insurance to be sure your benefits will cover this service. If there are any issues in payment from insurance, we will walk you through our assistance options to cover telehealth while we are under social and physical restrictions.

Four Health is donating funds to support our therapists and clients during this stressful time, if you wish to donate to this cause and provide your community with telehealth options let us know!

THANK YOU!!!

We received \$2,650 in donations to support our Bridging the Gap Lowell Area Schools Program!

Your generous giving allows students to continue receiving services until the end of the school year. Let's keep the magic rolling! All donation sizes make a difference for our youth! If you wish to support the Bridging the Gap Program (Lowell or Saranac) reach out with our contact information below!
